

# Q-Sys Web UI Theme Guide

## Overview

This guide provides curated colour theme examples for the Q-Sys Web UI plugin. Each theme is designed with consideration for:

- Professional aesthetics
- Modern design principles
- Integration with control layouts and containers
- User experience in different environments

## How to Apply Themes

1. In Q-Sys Designer, open the plugin properties
2. Set "Theme" to "Custom"
3. Copy the desired theme's hex values into their respective colour properties
4. Changes will apply in real-time to the web interface

### **Note:**

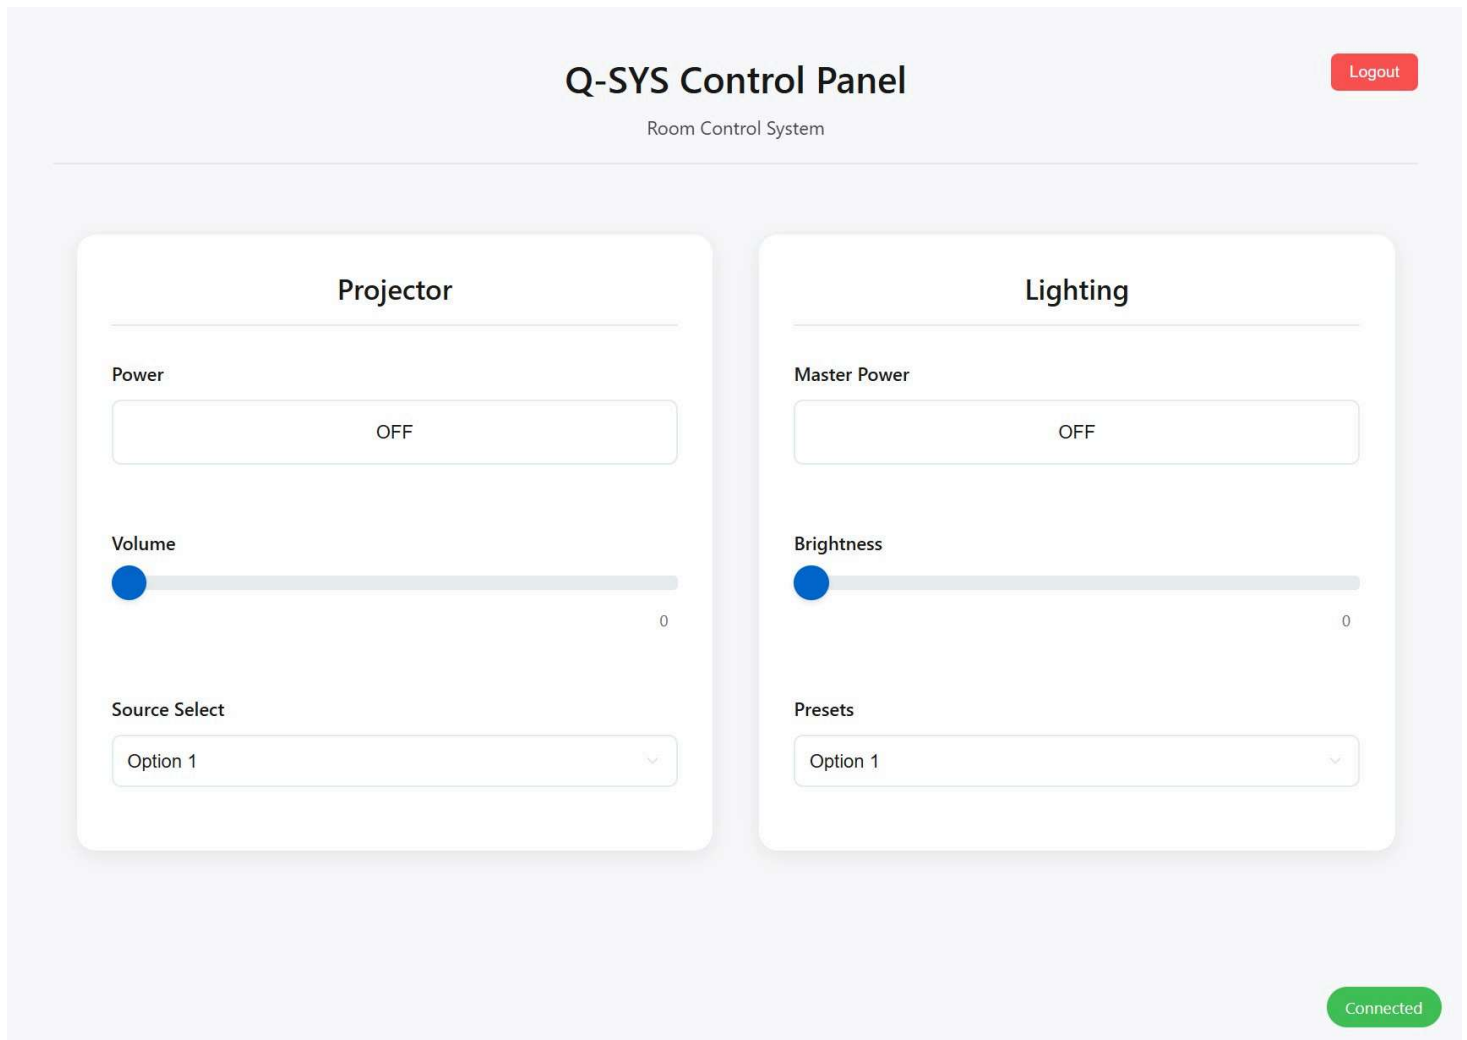

- The "Dark Mode" theme is applied automatically when switching to "Custom".
- The "Modern Professional" theme is applied automatically when switching to "Default".
- Themes are applied both to the login page and the main interface.

# Theme Properties Explained

Category & Property	Description
<b>Core Colours</b>	
Primary Colour	The main colour used for buttons and control elements
Secondary Colour	The background colour of the interface
Text Colour	The default colour used for all text content
<b>Container Colours</b>	
Card Background	Colour used for control container backgrounds
Border Colour	Colour used for borders and dividers between elements
<b>Button States</b>	
Button Inactive Colour	Background colour shown when buttons are disabled
Button Inactive Text	Text colour shown on disabled buttons
<b>Dropdown Menu</b>	
Combo Background	Background colour for dropdown/select menus
Combo Text	Text colour used within dropdown/select menus
<b>Status Colours</b>	
Error Colour	Red colour used to indicate errors and alerts
Success Colour	Green colour used to indicate successful actions

# 1. Modern Professional (Default)

A clean, professional theme aligned with modern web standards.

*This is the default theme, so no need to copy the values.*

**Theme:** Modern Professional

**Primary Color:** #0066cc

**Secondary Color:** #f8f9fa

**Text Color:** #1a1a1a

**Card Background:** #ffffff

**Border Color:** #e9ecef

**Error Color:** #fa5252

**Success Color:** #40c057

**Button Inactive Color:** #ffffff

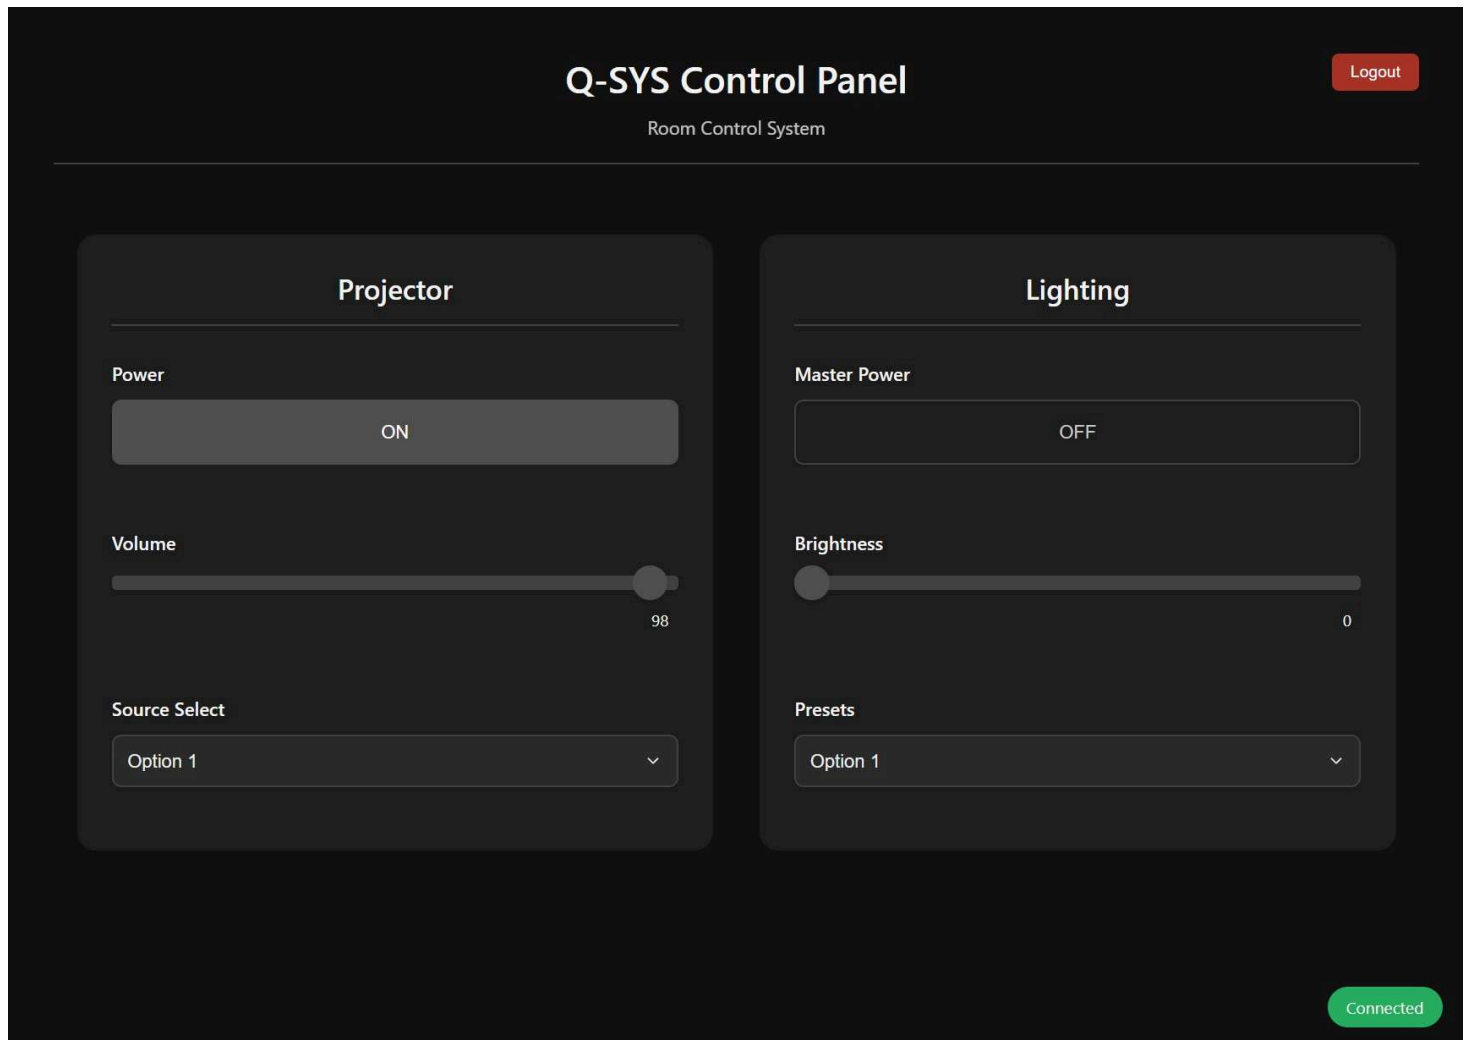

**Button Inactive Text:** #1a1a1a

**Combo Background:** #ffffff

**Combo Text:** #1a1a1a

## 2. Dark Mode (Custom Default)

A dark theme optimized for low-light environments.

Copy the following values into the "Custom" theme in the plugin properties.

Theme: Dark Mode

Primary Color: #505050

Secondary Color: #121212

Text Color: #f5f5f5

Card Background: #1e1e1e

Border Color: #444444

Error Color: #a83428

Success Color: #27ae60

Button Inactive Color: #2d374800

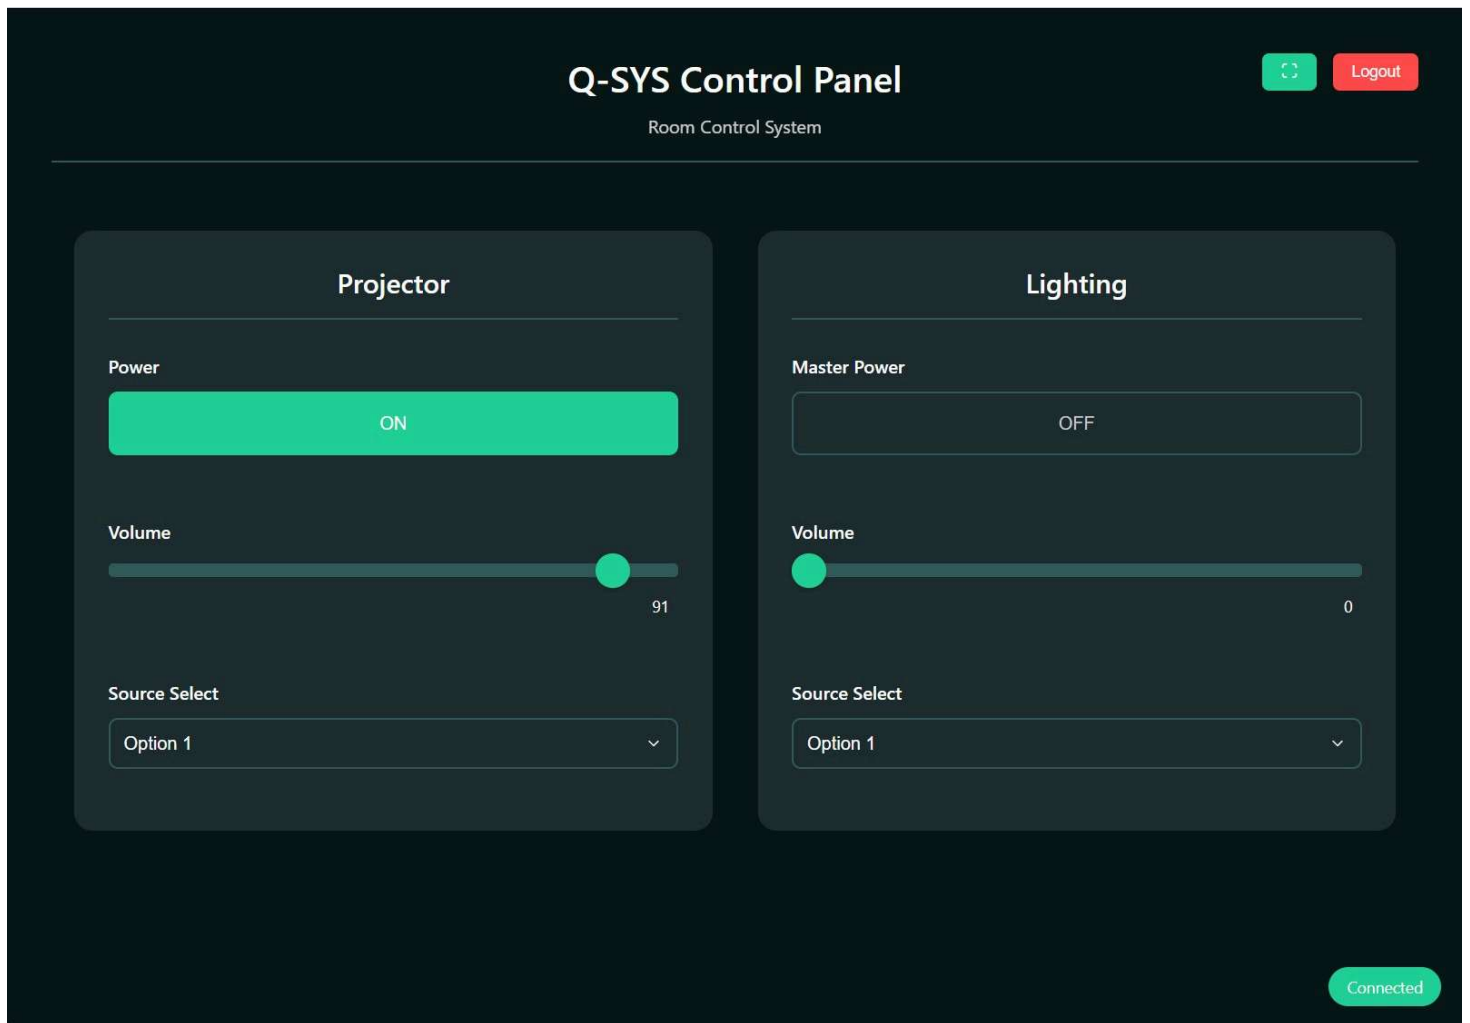

Button Inactive Text: #cccccc

Combo Background: #2c2c2c

Combo Text: #f0f0f0

### 3. Dark Vibrant (My Personal Favourite)

A sleek dark theme with vibrant accents.

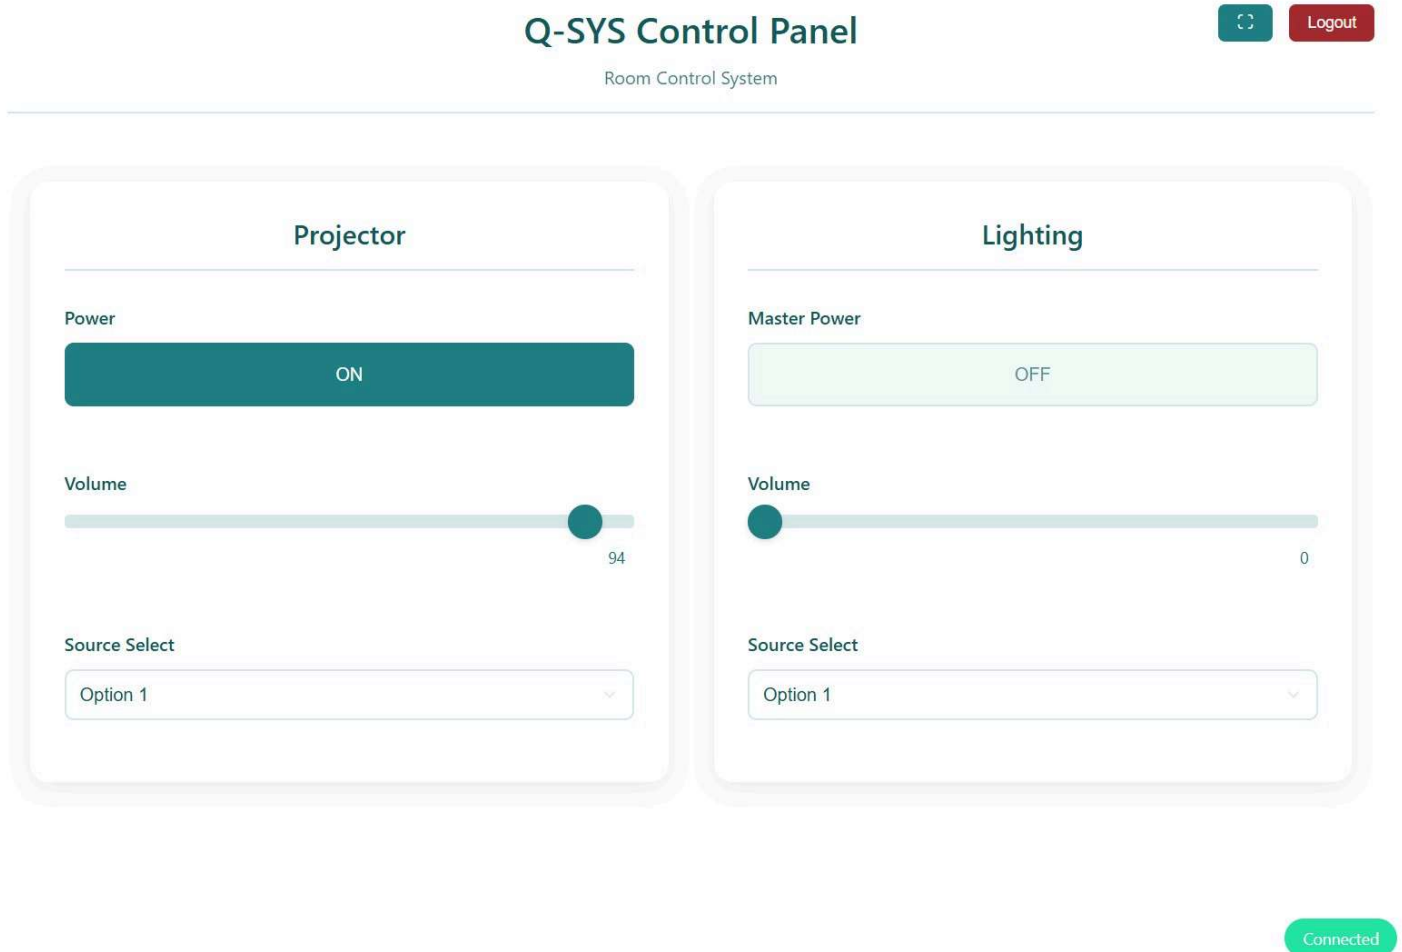

Copy the following values into the "Custom" theme in the plugin properties.

Theme: Dark Vibrant  
Primary Color: #22D196  
Secondary Color: #091717  
Text Color: #FFFFFF  
Card Background: #1E2D2F  
Border Color: #335B59  
Error Color: #FF4B4B  
Success Color: #22D196  
Button Inactive Color: #1E2D2F  
Button Inactive Text: #CCCCCC  
Combo Background: #1E2D2F  
Combo Text: #FFFFFF

## 4. Light and Smooth

A clean, professional light theme with teal accents.

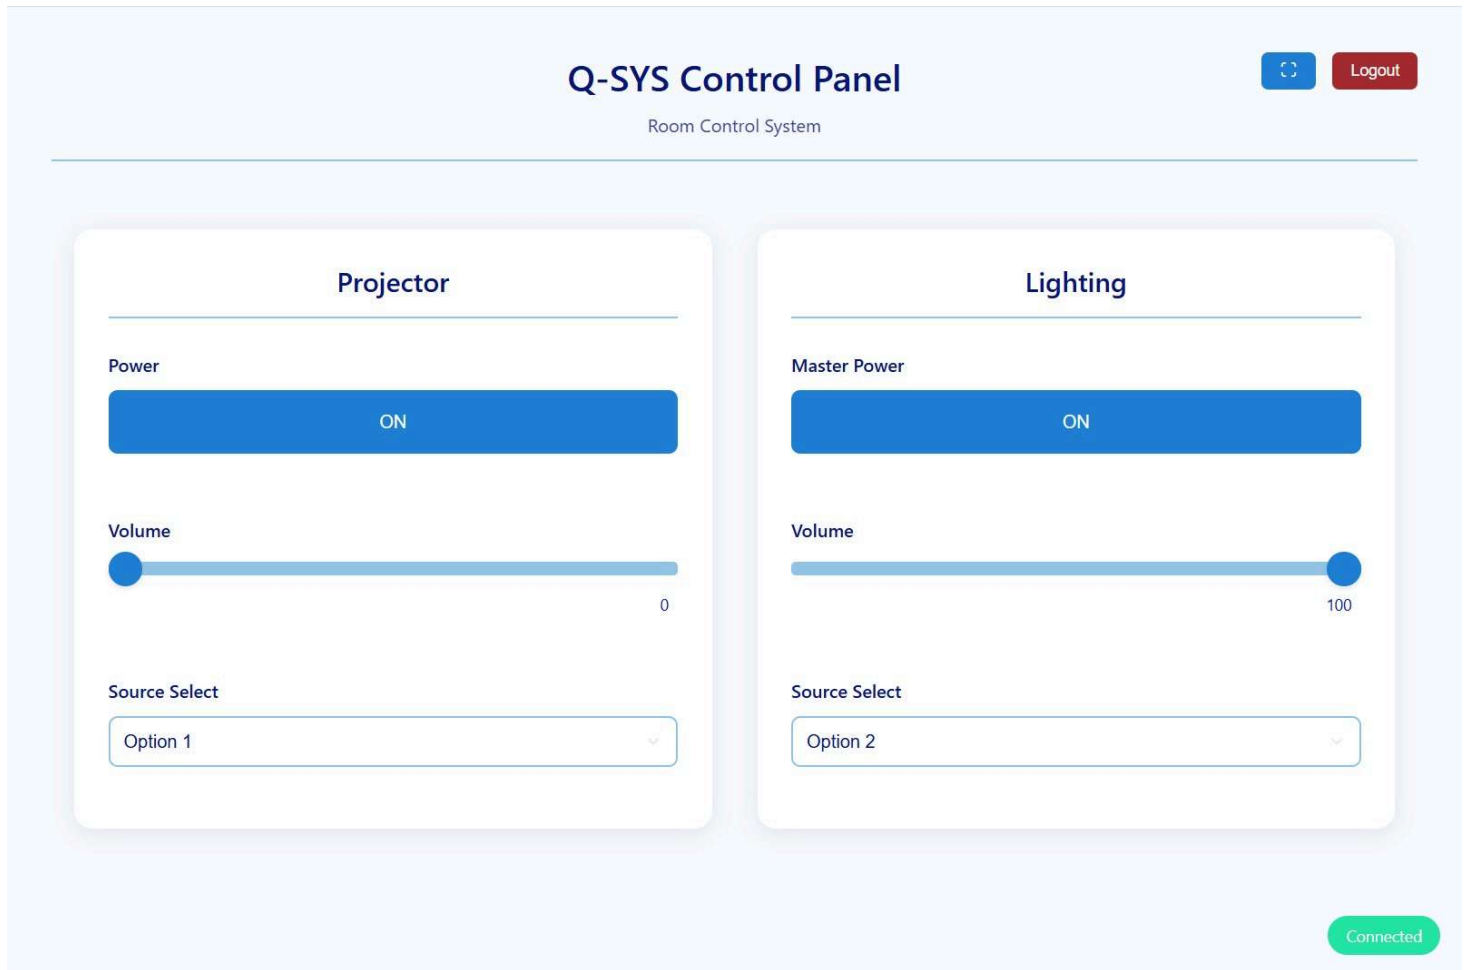

Copy the following values into the "Custom" theme in the plugin properties.

Theme: Smooth Light  
Primary Color: #208083  
Secondary Color: #FBFAF4  
Text Color: #165a5c  
Card Background: #FFFFFF  
Border Color: #D8E8E9  
Error Color: #A42B2F  
Success Color: #25E5A4  
Button Inactive Color: #F2F9F9  
Button Inactive Text: #609193  
Combo Background: #FFFFFF  
Combo Text: #165a5c

## 5. Ocean Blue

A refreshing blue theme inspired by the oceanic color palette.

Copy the following values into the "Custom" theme in the plugin properties.

Theme: Ocean Blue  
Primary Color: #2080D3  
Secondary Color: #F7FBFF  
Text Color: #091777  
Card Background: #FFFFFF  
Border Color: #93C6E6  
Error Color: #A42B2F  
Success Color: #25E5A4  
Button Inactive Color: #E0F0FC00  
Button Inactive Text: #6497BF  
Combo Background: #FFFFFF  
Combo Text: #091777

# 6. Forest Green

## Q-SYS Control Panel

Room Control System

Logout

The screenshot displays two control panels side-by-side. The left panel, titled 'Projector', features a 'Power' toggle set to 'ON' (green bar), a 'Volume' slider at 91, and a 'Source Select' dropdown menu showing 'Option 2'. The right panel, titled 'Lighting', features a 'Master Power' toggle set to 'OFF' (light green bar), a 'Brightness' slider at 79, and a 'Presets' dropdown menu showing 'Option 3'. Both panels have a light green border and a white background.

Connected

Theme: Forest Green

Primary Color: #2e7d32

Secondary Color: #ffffff

Text Color: #1c2a1c

Card Background: #ffffff

Border Color: #e8f5e9

Error Color: #27ae60

Success Color: #27ae60

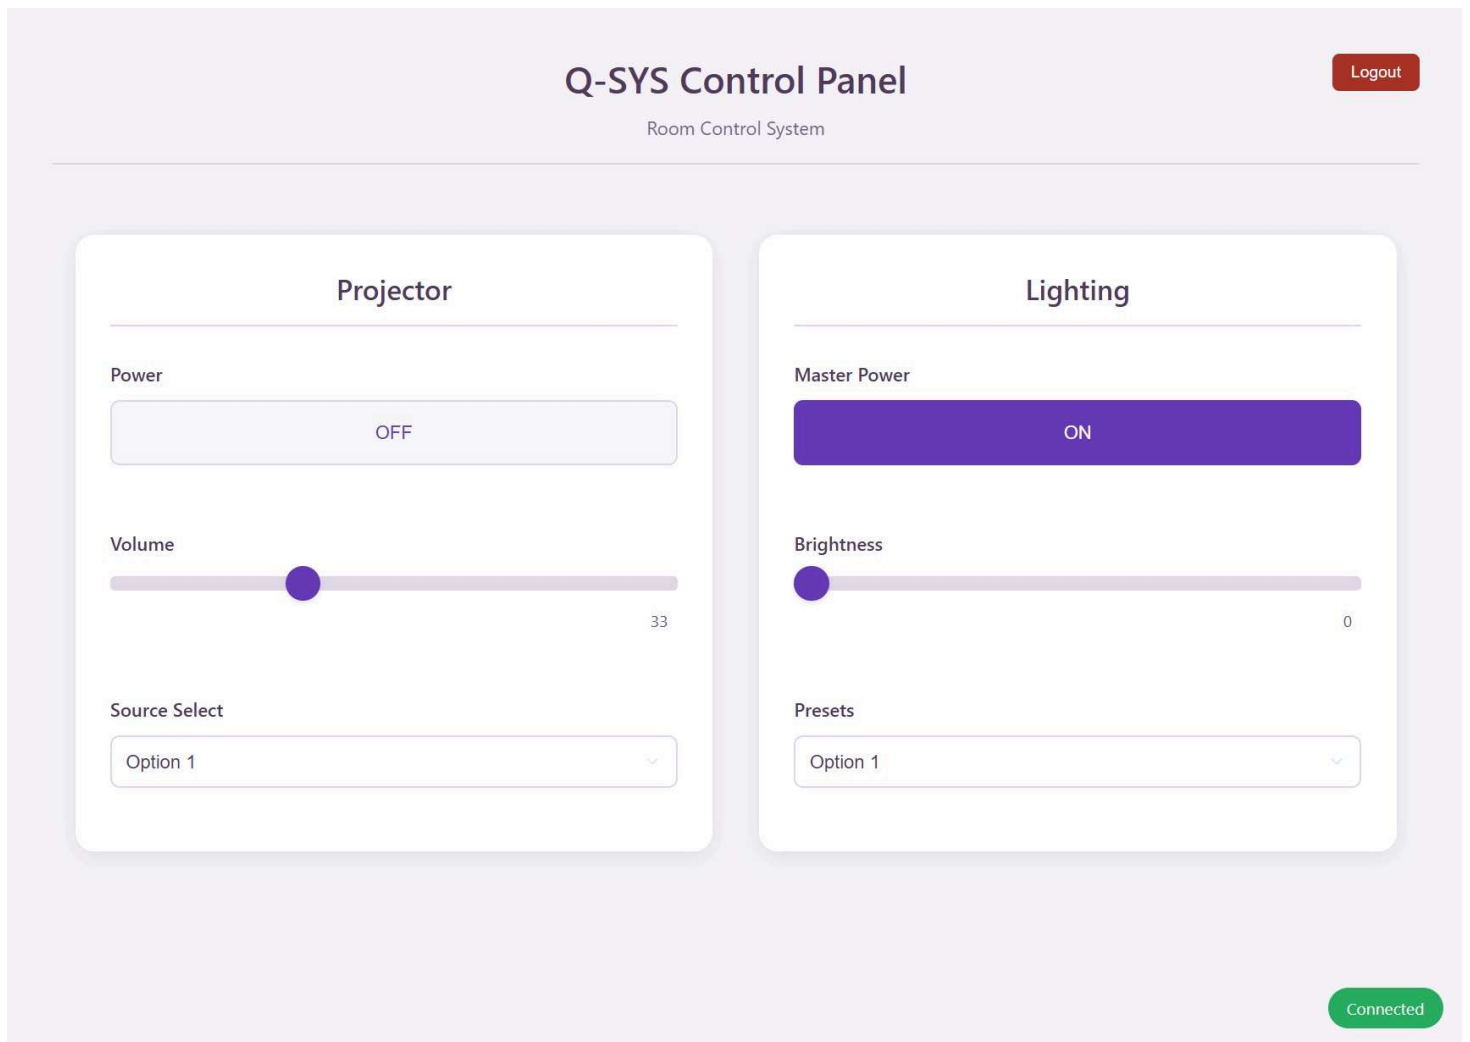

Button Inactive Color: #f1f8f1

Button Inactive Text: #2e7d32

Combo Background: #ffffff

Combo Text: #1c2a1c

## 7. Deep Purple

Copy the following values into the "Custom" theme in the plugin properties.

Theme: Deep Purple

Primary Color: #673ab7

Error Color: #a83428  
Success Color: #27ae60  
Button Inactive Color: #f5f7f8  
Button Inactive Text: #546e7a  
Combo Background: #ffffff  
Combo Text: #263238

# Best Practices for Custom Themes

When creating custom themes, consider:

## Color Psychology

- Blues: Trust and stability
- Greens: Success and progress
- Reds: Errors and warnings
- Neutral tones: Professional focus
- Teals: Modern technology, precision, and clarity

## Technical Notes

- All colors must be in valid hexadecimal format (#RRGGBB)
- Colors support alpha/transparent channel (#RRGGBBAA)
- Theme changes apply immediately
- Invalid hex codes will revert to defaults
